## About Us

Fair-trade - A trusted authority on digital currency investing. The company provides the security and ease-to-use platform. And also, minimizes risks due to the diversification of digital assets.

Your security and trust are important to us. We're committed to protecting your account with the highest standards of security available. Our Investment packages are diversified among many currencies in order to build a reliable investment portfolio.

We use the volatility of the market, allowing us to reap the most profits for the investors. Knowledge and understanding of volatility is important to identify the minimum and maximum price for an asset. Volatility helps us make predictions and bets based on previous value fluctuations. The higher the volatility of an asset, the more you can earn - and in this the cryptocurrency has no competitors.

We also actively use the artificial intelligence system to collect and process a large amount of information. Data - a valuable asset, and it becomes important not only to storage, but also the process of exchange. Such an AI system simplifies the storage of information and makes it easier and safer. We are constantly working to improve the quality of the product and platform for our users. Thanks to the AI system, our company provides simple and passive income to our users. For Fair-trade, the ability to detect and filter the required data while maintaining user privacy is very important.

# Introduction

## a. Company History

Our goal has been to use digital technology to create experiences. We have been through it all: cryptocurrency's glory days, the down-lows, the roller coaster spikes, the cliff drops and many other things. But these ordeals have made us some of the strongest-willed holders in the volatile arena of trading. We're used to believing in Crypto's Potential, even if no one else does. It's never easy to keep believing through the bad times, but we crypto traders are of a different tenacity. Our team consists of talented and experienced traders and miners in the field of crypto currency. We trade Bitcoin and altcoins on the most popular exchanges, which brings us and our investors a regular profit. The company implements the latest technologies and strategies of success achievement for a harmonious and stable development of the project every day. We have developed and successfully applied fully automated trading systems based on our trading experience, mathematical analysis and innovative software. Our activities also include mining of Altcoins. Bitcoin Mining is incredibly difficult now. The amount of energy required to mine bitcoin blocks increase as the community nears the maximum 21 million bitcoins. Instead of mining in an overcrowded market, we are currently specializing on mining various Altcoins, which can be then be swapped to Bitcoins by the user. This way we can circumvent the problem that the difficulty of mining is rising at an incredible pace. We believe that Altcoins have high importance, because diversity fosters innovative blockchain technology. The many different coins with their strong communities are an inseparable part of the digital currency sector and we stand by their side with full support.

## b. What The Company Does

At Fair-trade, We believe that decentralised cryptocurrencies like Bitcoin and Ethereum will fundamentally change how the world views crypto investment. As early pioneers in this industry, we feel it's our duty to bring this knowledge and excitement to the world as best we can. We help individuals, families and institutions invest, manage and distribute the capital they need to achieve their goals. We put the power in your hands to mine, trade and invest digital currency. With our proven track record and mature approach to the industry, we provide reliable mining, trading and investment of cryptocurrencies for both individuals and institutions all around the globe.

# Strategy

## a. Vision statement

We aim at being number 1, if not the best, at this industry. We have laid out plans which are already in motion to bring our reach far and wide. Our vision remains to help lift lives while increasing our momentum in becoming the best crypto mining investment service across the globe.

## b. Mission statement

Our goal is to reduce risks and guarantee a stable income for our investors and reinvestment of assets accrued through all our trading activities. We have a team of experts on board from different fields like finance, technical, management and analytics and this has empowered our cause of taking this investment platform to a higher level.

## c. Advantages

When you partner with us, your questions will be encouraged and our answers will be straightforward. We will help you understand where and how your money is invested, how your investments are performing, and how much it is costing you. As a bonus, you will have access to tips and insights that can help you attain your specific goals.

## d. Guarantees

Do not forget that we would take further steps to make sure everyone gets top quality service. If you have any queries about our services or any questions about Crypto investment, do not hesitate to get in touch with us and our proficient team will be back to you as quickly as possible.

## e. Business strategy

We believe in the divergence of investments; therefore, we work in several areas like Crypto Mining, Trading, Backed Loan, Investments etc. with our team of professionals each working in its specific area.

## f. Economic intent

Our economic intent centers on making money for our investors, we strive so hard to make this happen and happen very profitably because when you make money we also make money.
